

Mullum Mullum Festival PO Box 173 Mitcham 3132 <http://mullummullumfestival.org.au>

## Notice of Annual General Meeting - Mullum Mullum Festival

Saturday 12 October 2013 at 5pm, Yarran Dheran Information Centre, Mitcham Mel 49 B6  
(Enter from Ashburton Drive)

**You are also invited to attend a presentation preceding the AGM from 4pm-5pm**

### **“OMISSIONS OF EMISSIONS: OUR ENVIRONMENT, LIVESTOCK AND THE CLIMATE CRISIS”**

**Presented by Paul Mahony**

Paul will talk about the anthropogenic climate change crisis and demonstrate the impact of animal agriculture on climate and thus the environment we live in, and care for. Paul will also discuss measures that must be taken if we are to overcome the crisis.

Paul is an environmental and animal rights campaigner who has been presenting to many groups and organisations and at University conferences on the enormous, and often overlooked, climate change impacts of animal agriculture. He attempts to remove what he considers to be blinkers and blind-spots in the community, resulting from social, cultural and commercial conditioning.

Paul prepared [Vegetarian Victoria's submission](#) to the Victorian State Government in response to its [Climate Change Green Paper](#). His question on animal agriculture and climate change finished second in polling for The Sunday Age's 2011 "[Climate Agenda](#)"

Find Paul on [Bayside Climate Change Action Group](#) and [Terrastendo](#)

#### **AGM Agenda:**

Apologies

Minutes of the 2012 AGM

Annual Report

Financial Statement

Appointment of Executive

Our plans for the 16<sup>th</sup> Festival

General Business
